SPECIFICATIONS

COMPOSITION:
Lock-tile is manufactured from a 100% recycled tough injection molded PVC compound.

DIMENSIONS:
Size: 1 tile with interlocking joints measures 19 5/8" x 19 5/8"

When interlocked, 4 tiles measure 38 7/8" x 38 7/8"

Thickness: available in 1/4" (7mm) and 3/16" (5mm)

Weight: 4.23 lb. and 3.23lb average

DESIGN
Interlocking tiles with raised disc or textured finish, and grid pattern underside.

MAINTENANCE:
General maintenance - damp mop. Cylindrical scrubber with combined vacuum using mild

detergents may also be used. Rot proof and resistant to oil and most chemicals.

PHYSICAL PROPERTIES:
Hardness: ASTM 2240, (shore A) 93 + or - 3

Moisture Absorption: ASTM D 471, Less than 3% by weight (72 hours @ 70° F)

Specific Gravity: ASTM D 792, (+ or - .02) 1.37

Tensile Strength: ASTM D 638, 2700 PSI

TESTING:
ASTM F925, Resistance to Chemicals, on a scale of 0-3 and 0 meaning no surface dulling, surface attack, or color change.

Lock-tile scored a rating of 0 for all chemicals tested.

ASTM E 648, Critical Radiant Flux of Floor Covering Systems using a radiant heat Energy source: Class 1.

ASTM E-662, Standard Test Method for Specific Optical Density of Smoke Generated by Solid Materials: 450 or less

ASTM D-2047, Static coefficient of Friction. Conform to American with Disabilities Act (ADA) specifications.

ASTM D-149-97A, Dielectric strength - exceeded 45 kV (suitable for electrical facilities).

LIMITED WARRANTY:
Lock-Tile® is warranted against defects in workmanship and material for thirty years from the date of purchase.
