

## The Original & Still the Best!

Advantage 4-Post lifts are made exclusively for Advantage Lifts. Over 20 years of experience selling, installing, designing and building lifts have gone into the design of each model. This is not your run of the mill, stamped out, imported lift that you see everywhere on the market. Each lift is built to our specs, which gives you, the customer, a superior design, and high-quality product.

**5 YEAR LIMITED WARRANTY INCLUDED!**

**SXS-10000.** The Side by Side lift is a great option for doubling the space of your two-car garage. A span of 16' between the posts gives you ample space to drive two vehicles under your hot rods. With the optional decks inserted it can turn your lift into a mezzanine to store the garage items. The Side by Side lift was designed to hold 10,000 lbs. (two 5,000 lb. cars side by side). The cross arms are crowned and reinforced to prevent sagging. The SXS-10000 premium accessory package includes: (2) rolling jack trays, (8) drip trays, (1) set of aluminum ramps, (3) aluminum walkway inserts, (8) aluminum end stops, (4) rubber wheel chocks, (4) casters, and a 5 year limited warranty.

Shipping Weight	4,400 lbs.

# Check out some of our most popular lift accessories

## Air Bag Jack

This portable, inflatable air jack is ideal for doing wheel and suspension work either at the shop or on the road. Capacity of 4,000 lbs., 4.75" minimum height and extends to 11.6", and requires 80 PSI.

## Rolling Hydraulic Scissor Jack: Manual or Air Pump Option

Jack extends to 67" and raises 19" with included 1 1/2" and 5" extensions, comes with two high density lifting blocks for axle placement creating a solid lifting point. Ideal any time you need to raise your vehicle off the wheels. Also fits other four post lifts.

## Aluminum Deck Inserts

Transform your lift into a full deck storage area, providing additional square footage for motorcycles, ATV's or other garage items. The HD can fit 3 inserts, the XLT/WD can fit 4 inserts, and the SXS can fit 4 inserts in each half.

## LED Light Kit

Magnetically mounted light kit illuminates underside of the vehicle. Lights are UL approved. (Fits all 4-post lifts)

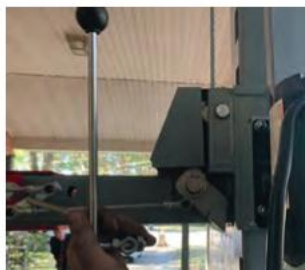

## 48" Aluminum Approach Ramps

Lightweight 48" aluminum approach ramps provide gradual rise for low profile vehicles.

## Lock Extension Set

These lock extensions are placed on all 4 posts and will add an inch of clearance underneath. (Does not work on top lock of the SS-HD, SS-XLT, WD and SXS)

## Handle Extension

The 9" long extension screws onto the end of the lock release handle. This will make reaching the handle on our taller rise models easier, and reduces how far you need to bend down to get past the last lock position.
